## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In Claim 1, it is not clear as to what “organic monomers” refers to.

In Claim 2, the silicon compound of formula (III) does not have hydrolyzable groups. Therefore, it cannot be hydrolytic condensed.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Kroner (DE 197 00 063).

Kroner discloses an ormocer prepared by moisture cure a copolymer derived from vinyl ethers and a silicon compound containing vinyl ether radicals by using boron fluoride etherate as

a cationic initiator (page 2, line 16 to page 3, line 63, Examples). The English translation of the instant reference is being requested. It will be available later upon Applicants' request.

5. Claims 17-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Kroner does not teach or fairly suggest a dental material set forth in the instant claims.
